THIRD PARTY FUNDING IN INTERNATIONAL ARBITRATION AND LITIGATION

Online event: <https://essec.zoom.us/j/92600497931>

Third party funding (TPF) is a fast-growing alternative to financing legal disputes. It allows a non-related third party (the funder) to provide financial support to a party in return for an agreed portion of the proceeds if successful, or nothing if the claim fails. This webinar will provide an introduction to TPF from two established global funders, including conditions for obtaining funding and the mechanics of a funding agreement.
